About Me

Motivated and diligent B.Tech student with a Computer Science specialization, known for my strong work ethic, honesty, and dedication. I possess a passion for problem-solving and an eagerness to learn and grow in the field of technology and I have consistently demonstrated the ability to adapt to new technologies and deliver high-quality results within deadlines.

CAREER OBJECTIVE

My Career Objective is to be a Successful Software Engineer.

PROJECT

Project Name: Personal Inventory System

Description: Developed a Java-based Personal Inventory System utilizing HTML, CSS, Servlet, Java, and MySQL database technologies. The system provides users with the ability to register, store, and search their expenses and income. Implemented features include a bankbook and cash book facility, enabling users to search transactions date-wise.
